**Standard Oil Fine.**

Last Wednesday the United States Circuit Court of Appeals reversed the famous decision against the Standard Oil Co. for \$29,240,000. The case was remanded to the District court for a retrial.

No case in years caused the talk and discussion that arose immediately after the imposition of this tremendous fine. Judge Landis, the trial judge, was both criticised and highly commended and in a day become known all over the land.

While it may be that there will never be a dollar of this fine collected we believe that its imposition was a good thing as it will be a lesson that no matter how large or powerful a corporation may be that it can not with impunity evade the law. The manner in which this fine was received by the great mass of the people clearly showing that they are in favor of punishment of the great as well as the small. We believe also that it will only be a few years until the intent and legal technicalities which now give large corporations an opportunity to evade the real purpose of the law will be a thing of the past and large fines together with imprisonment will be inflicted and enforced on the heads of large corporations who insist on breaking the law.

Some of our boys have begun to regret that the "Honkey Tonk" ever came into existence.

The good people of Brushcreek township are already prepared for the issue of "wet" or "dry," so far as to petitions signed and permission to vote on August 10. Yet if more time were allowed to elapse, to illustrate the evils arising from the existence of the saloon before a vote was taken, probably the dry percentage would be augmented by some who as yet have not realized its degrading influence in the community.

Was Awarded Both Medal and Diplomas at the WORLD'S COLUMBIAN EXPOSITION CHICAGO, ILLINOIS

HIGHEST POSSIBLE HONORS

Diploma Awarded for Tone, Touch, Scale, Material and Workmanship.

One of the contributory reasons why the Malcolm Love Piano is recognized as THE WORLD'S BEST PIANO may be found in the fact that since its inception it has been made under the supervision of the famous piano builder, Wm. C. Vough, and embodied in it are certain improvements found in no other instruments.

It is not merely the combination of wood, felts and metals, but it is the knowing how to combine them in order to produce the highest musical results which has made the Malcolm Love the Piano by which all others are measured.

The Malcolm Love is a work of creative art which stands alone unqualifiedly the best.

We are also factory representatives for thirty other leading makes of Pianos.
